

## Around the City.

Mr. Tolson, Hardley Street, left for Macleod yesterday morning and will not receive next week.

\*Wanted—We want a few inside lots, Reservoir and Residential. These must be at rock bottom prices, as our clients are very keen in a hurry. Apply to Shaver & Biggs. 37-390p.

The following building permits were issued by Inspector Davies today: Gotlieb Benes, a cottage on lots 30 and 36 in block 2, to cost \$800, frame construction, brick foundation. (Guthrie Kadatz a shack on lot 29, block 2 to cost \$225.

On Monday last Mr. J. J. Mellon has a gold watch containing a small photograph and having an inscription on the outside. Mr. Mellon would be deeply grateful to anyone returning it to him, as he is particularly anxious to recover the photograph, and will give a reward for its recovery.

A lawn social under the auspices of the Ladies' Aid of the Methodist Church will be held on Dr. Crang's lawn on June 25th. Ice cream and other delicacies will be provided, and the band will be in attendance. Admission 10c.

The Sandy Lake school district will hold its annual picnic on June 26. The picnic is an annual event of merit and always draws a large crowd. This year it will be better than ever and the crowd which will surely be in attendance is assured of a splendid outing. It offers an exceptional opportunity for folks to meet their friends.

An accident which might have been much more serious occurred as this 4 o'clock train left the depot yesterday afternoon. After the train commenced to move a man named Edworthy, a visitor from Wetaskinaw, tried to step on board, but missed and fell. He would have fallen under the train had not bystander with great presence of mind grabbed him and pulled him up to the platform. As it was he was crushed, dislocated and severely hurt. Dr. Collier was called and after examining the injured man ordered his removal to the hospital.

At the meeting of the local lodge of the Sons of England Benefit Society it was decided that the memorial to the miners who perished in the strike at the Strathcona Coal Co's mines should take the form of a drinking fountain, and a committee was appointed to take the matter in hand. Application will be made to the C.P.R. for a piece of ground for the fountain on the right of way on Whyte Avenue. A subscription list will be circulated, and the amounts received published in the press. Over \$30 has already been contributed. The committee will meet again on Tuesday next.

## Baptist Convention in Edmonton

Yesterday evening the annual Baptist Convention was opened in the First Baptist Church, Edmonton. A large number of delegates were in attendance. The meeting was opened by a long service by the choir and prayer by Rev. Lefley, of Vancouver, followed by a few remarks from the chairman, T. M. Marshall, of the Midland Methodist Church of Edmonton, after which the president's address was read by Thos. Underwood of Calgary. He said in part that although he had resided in Calgary for something over twenty years, yet this was the first time he had visited the capital city. He said in part that to hold in this northern country and in his opinion the next twenty five years of Baptist history would show a decided change regarding the religious conditions of the country, although the results have proven very satisfactory. "There are over 700 places of worship in the three provinces," he said, "and still the great need of the country is to carry on the work in greater than ever before." His address was divided into four separate topics, viz, The Pastors, Deacons, Teachers and Superintendents, and The Missions. Next followed an address by Rev. F. W. Patterson, D.D., of the First Baptist Church of Calgary, who made a very interesting talk on the subject of "What Shall Come to Pass?"

During the course of the meeting, much was rendered by Edmonton and Strathcona choirs, with a solo by Mrs. McLean, of Portage la Prairie.

## Baseball.

### Calgary Went Under Again.

Edmonton on their own grounds put it all over Calgary last night. 8-1 was the final score and that about represents the comparative merits of the two teams. In the first innings the Capitals took a strong lead with four runs to their credit, Calgary making but a slug. In the third, fourth and fifth Edmonton notched up singles, with nothing doing by the Cowpunchers. Indeed nothing doing was the story for the remainder of the game so far as the southerners were concerned, though they looked dangerous in the ninth. Edmonton only added one more to their total in the eighth.

McClair, the Capital's pitcher, did great work and a large part of the credit of the victory is due to him. He was backed by smart work in the field, and the batting of the home team was decidedly good. Shirine of Calgary was hit hard. It was not very difficult to find on his deliveries.

Score by Innings: W. L. P. C. Edmonton 4 0 1 1 0 0 10-8. Calgary 1 0 0 0 0 0 0-1.

## Medicine Hat

### Beat Lethbridge.

Lethbridge, June 20.—For six innings Lethbridge looked like the losing Medicine Hat here tonight, but in the seventh the Hatters got seven men over the plate and took a lead which gave them the game.

Score. W. L. P. C. Medicine Hat 0 0 1 0 0 0 7 0-8. Lethbridge 2 0 0 0 0 1 0 1-4. WESTERN CANADA LEAGUE. Standing of the Clubs:

Medicine Hat.....15 8 652. Edmonton.....14 8 636. Lethbridge.....18 14 664. Calgary.....8 15 348.

## Football.

Last evening the Caledonians, of Edmonton, defeated the Brackman-Miller Co. by a score of 6-3. The game was a fair exhibition of football and was closer than the score would indicate. The winners were strengthened considerably by several of the miners from the Strathcona Coal Co., who will be with them for the remainder of the season.

Tomorrow night Strathcona City and the Brackman-Miller Co. meet in a scheduled league game at the Agricultural grounds here. The national aggregation is now playing championship football and anticipating taking a fall out of the league leaders.

## Lacrosse.

Tomorrow afternoon Edmonton and Calgary meet at the latter place in the second game of the Alberta League series. The Capital bunch have been considerably strengthened since their recent defeat by Strathcona, and the Cowpunchers will have to travel their prettiest to win. Another defeat for Edmonton will seriously impair their chances of winning the championship of this division. W. McClair, M.P., will face the ball.

## To Succeed Waldie.

Toronto, June 20.—Duncan Coulson was elected director of the Bank of Toronto to fill the vacancy caused by the death of the late John Waldie.

## Threw Bomb Among Deputies

Athens, Greece June 20.—An unknown man threw a dynamite cartridge from the gallery of the Chamber of Deputies during an all night session which began yesterday. A disaster was avoided by the fight becoming detached in the midst of the misdeed. The deputies rushed for the door. The man who threw a cartridge was arrested and proved to be a well known anarchist.

## Royalty At Ascot.

Ascot, June 20.—This was the greatest day socially of the Ascot meeting. King Edward, Queen Alexandra, and the Prince and Princess of Wales and Prince and Princess Andrew of Greece went in state procession to the field. The weather was perfect and most of the London society were in the royal enclosure. The display of handsome dresses and the gay color of red costumes surpassed all former years. The principle event was the race for the gold cup for colts and fillies.

## Fire Destroying Timber.

Toronto, June 20.—R. R. Gamey arrived from Manitoba this morning and states that there is over a million feet of timber destroyed by fire in the three townships of James, Smythe and Tudhope. He fears that there is a loss of life in the back districts. The government reserve was partly burned over. Gamey owns a rich silver mine in James township.

## Killed By Baseball.

Quehph, Ont., June 20.—A young lad, Arthur Felker, who was hit on the head by a baseball a week ago died last night of his injuries.

## Fire Explodes Dynamite.

Quebec, June 20.—It is reported that in Ladigue region a couple of days ago a large quantity of dynamite and powder exploded as a result of forest fires. No loss of life is reported by an earthquake for miles around.

## Nephew of "Bobs" to Wed.

Chicago, June 19.—Chicago society was interested to day in the announcement that David Bruce Roberts, nephew of the late Senator Charles D. Roberts, and a member-in-chief of the British army, will marry Mrs. Samuel A. McLean, widow of Mr. Robert's best friend, tonight. The wedding dinner will be at Glenwood Lodge, at Glenlyn. The marriage follows almost directly upon the death of the late Mrs. McLean a fortune. Roberts has been a banker for a number of years. He bought wheat at the low ebb and held it until the highest price was reached. He sold, making a profit of half a million for himself and Mrs. McLean.

## Killed At Cochrane Races

The worst accident which has ever occurred on a race track in Alberta and probably the first fatal one, occurred at the Cochrane races yesterday afternoon, when James Ross was run over and fatally injured, dying two and a half hours after the accident.

The cowboy races were not held on the regular track but in the centre of the mile track and probably this accounts for the fatality as the crowd flooded all over the course and were not held back by any fence. Repeatedly they were shown of the course as the contestants of the race started up, but failed to take the warning. The cowboy race consists of a 500 yard course with two barrels, one at each end, around which the contestants have to turn. They start from the centre of the course and finish at the third turn.

This race started as usual and the horses rounded both ends, when on the home stretch the first, second and third horses had distanced the bunch and sat considerably.

The first horse, ridden by Guy Labe had passed the post, when two men named James Ross and W. R. Burke with a number of others rushed to the corner to see him turn for betting about the other horses in the race. Before a warning could be shown, Burke and Ross were knocked down for four horses passed over them. Ross as soon as he was struck by the hoofs, fell limp, but Burke, partially stunned, remained on his knees. Both men were immediately dragged from the course and a doctor called.

For some time the doctor kept Ross on the ground, in order to enable him to recover from the shock, but finally he laid him removed to Cochrane.

The direct injuries were a compound fracture of the skull with a pressure on the brain.

## Press Agent For Exhibition.

(Special To The Chronicle) Toronto, June 21.—H. J. Good has been appointed permanent press agent for the Toronto Exhibition at a salary of fifteen hundred dollars.

## Reduced Fares to Education Ass'n Convention.

(Special To The Chronicle) As doubtless many persons are desirous of taking advantage of the cheap rates offered by the railway companies for the trip to Toronto in connection with the convention of the Dominion Education Association to be held in July, the following information may be interesting.

In order to receive the benefit of the reduced return fare it is necessary to be a member of the association, but any one may become a member. The fee is \$1.00, payable to the secretary in Toronto when registering.

It is necessary to get a standard railway certificate from the railway agent when purchasing through ticket to Toronto. See that this certificate is properly filled in and honored by the agent. Reduced rates will not be granted to persons neglecting to obtain certificates.

Tickets on sale Winnipeg July 5 to 8 and other points in Manitoba, Alberta and Saskatchewan on dates to call connecting trains.

Tickets for return trip issued within four days after the close of the meeting to members presenting standard railway certificates duly signed. These are good to return until August 9th. Upon the payment of \$1.00 additional to the special agent of the railways at Toronto the time for the return trip will be extended to August 27.

The usual arrangements will be made by the railway companies for visiting all certificates presented at the secretary's office, thus avoiding delay and confusion.

Those wishing to take the boat from Fort William to Owen Sound will pay \$4.25 extra each way. This includes cost of meals and berth on boat.

A list of hotels and boarding houses will be furnished on application to the secretary.

W. A. McIntyre, Winnipeg, is president of the association and the secretary is J. J. Goggin, 9, Wellington Street West, Toronto.

## Brute Sent To Jail.

(Special To The Chronicle)

Winnipeg, June 21.—A child belonging to W. Chichocki, of Liggar Street, died on Monday, and the mother out of her own earnings paid the father \$5 to arrange for the funeral.

Instead of using the money for this purpose he spent it on drink. In the meantime his sorrowing wife, sobbing over the dead child, awaited his return. Becoming anxious at his prolonged absence she finally sought the aid of the police, who after a search found the husband dead drunk in one of the hotel bars. The authorities buried the baby, and the husband being arraigned in the police court received a well deserved sentence of two months in jail.

## Ruperts Land Synod.

Winnipeg, June 20.—At the Diocesan Synod of Ruperts Land, now in session, an interesting discussion took place this afternoon on the initiative of Canon Murray who read the report of a committee on the metropolitanates. The report supported the maintenance of Ruperts Land as a metropolitan see in accordance with the ancient custom of the church for maintaining the continuity of the policy, by its central position. The proposal of the committee was that the metropolitan should in future be elected by a new method, a committee of sixteen being formed, eight from the provincial synod and eight from the Diocesan Synod, which would nominate six and that after the first ballot one of these be dropped, after the second one, and so on until three remained from whom the House should select one. The discussion brought out some opposition and various amendments were moved, one of which provided for a new diocese of Manitoba being formed and making Winnipeg the diocese of Ruperts Land and retaining it as a metropolitan see. Finally the proposal of the original form carried and the archbishop appointed Canon Murray, Archdeacon Forlio, and Chancellor Macphay a committee to prepare this report for the provincial synod which meets here in August.

## Was Not Drunk. Broke Her Neck.

(Special To The Chronicle) Montreal, June 20.—An inquest was opened yesterday on the body of the man who died in the police cells early yesterday. Richard Beach was found by a policeman in a helpless condition and locked up on a charge of drunkenness. Next morning he was found dead. An autopsy revealed a clot of blood and that the skull had been fractured by a blow. A witness told of seeing a struggle between three men. One went down as the result of a blow from a small instrument.

## Bloods Went Sell Land

Cardston, June 20.—The Blood Indians voted as to whether the 2400 strip of the reserve next to the town of Cardston should be sold or not. On the face of it looked to be an Al sale for apiece of land absolutely of no use to them; nevertheless the proposition was defeated more than three to one, the exact vote being 100 to 35. Half the band did not vote at all.

J. A. Marshall was conducting the negotiations, which were opposed tooth and nail by Crop David Wolf, the head chief. He personally canvassed every on the reserve. Some he secured, to stay away, and he converted sleeping sentiment in favor of selling into a triumphant majority against.

## Killed in Montana By-Elections.

(Special To The Chronicle)

Red Deer, June 21.—Word has been received from Whitefish, Montana, of the death of Thos. Pearson, who was accidentally killed at Libby. He was a son of William Pearson, who lived east of this town.

## Injured by Blast.

(Special To The Chronicle)

Saskatoon, June 21.—While blasting at the Ferry landing here yesterday Wilcox Duford had his left hand shattered and may lose his eyesight. It was found necessary to amputate his hand.

## Logs At Prince Albert.

(Special To The Chronicle)

Prince Albert, June 21.—The river rose ten feet here today. A hundred thousand logs which broke loose from Strathcona and Edmonton have passed Battledore and efforts are being made to stop them here.

## Twenty-Five Year's Service

(Special To The Chronicle)

Ottawa, June 21.—Many cables were received by the Hon. W. B. Flaveling congratulating him upon the completion of a quarter of a century of public life.

## Banquet to Premier Scott

(Special To The Chronicle)

Regina, June 21.—Large numbers are coming here to attend the complimentary banquet to Premier Scott. A hundred and fifty guests arrived on one train last night.

## Juvenile Incendiaries

(Special To The Chronicle)

Belleville, Ont., June 21.—It has been discovered that the recent fire from this city were caused by juvenile incendiaries. As Stewart, a weak-minded sixteen-year-old girl, has confessed that, incited by Derand Foster, aged 11, she set fire to the Queen's hotel stables and Jenkin's livery.

## Thirteen Cars Ditched.

(Special To The Chronicle)

Lundbrock, Alta June 21.—A loose wheel sent thirteen cars off a coal train here today. No one was hurt.

## Street Railway Men Want Increase.

(Continued on page three)

Toronto, June 21.—The Street railway motormen, conductors, and other employees are asking for six cents an hour increase in wages all round. They are now paid 18, 20 and 22 cents per hour.

## Calgary By-Elections.

(Special To The Chronicle)

Calgary, June 21.—In the municipal by-elections J. R. Stewart was elected ward four with a big majority over Brockbank and Halliday. In ward two Robinson beat Niblock by 41 votes.

## Scotch Tartans

We have got what we have been waiting for some time. A nice line of TARTAN TIES as follows:

"MacKenzie," "MacKay," "MacLaren," "Fraser," "Gordon," "MacLaren of Duart," and "Stewart" Dress.

These are made of very fine silk and are alike on both sides. We have also received a good assortment of Derby, Knot, Tick and Bow Ties at 25c, 35c, 50c

### CITRIC ACID.

The Way the Secret of its Manufacture Was Broken.

The proprietor of an old chemical firm, who had been in the business for many years, was one day employed by the government to make citric acid. More favorably circumstanced than other secret manufacturers, he was a process that required no assistance. He employed no workmen. Exports came to sample and to sort and bottle his products, but they never entered the laboratory. The mystic operations by which he grew rich were confined to himself. One day, having locked the doors and drawn the window blinds as usual, sure of the safety of his secret, the chemist went home to his dinner. A chimney sweep, or a boy disguised as such, with a snake in chemistry, was on the watch and followed the secret keeper to Charing Cross, and sure that he would not return that day, the sooty philosopher had rapidly back to Temple Bar, ascending the low building. The monopoly of the inventor was gone a few months after, and the price was reduced by one-third. The poor man was heartbroken and died shortly afterward, ignorant of the trick by which he had been victimized—London Spare Moments.

### THE LOG JAM.

Quick and Sure Must Be the Workers When It Goes Out.

Log jams are not an abnormal part of the riverman's work, as most people suppose, but a regular incident of the day's business. In the breaking of them the jam crew must be quick and sure. I know of no finer sight than the going out of a log jam. The men pry, heave and tug sometimes for hours. Then all at once the apparently solid surface begins to crack and settle. The men zigzag rapidly to save. A crash and shout of victory mark where the first tier is already toppling into the current. The front melts like sugar. A fast, formidable movement agitates the brown tangle as it you can see, and then with another sudden and mighty crash the whole river bursts into a torrent of motion. If everything has gone well, the men are all safe ashore, leaning on their needles, but ready at any instant to hasten out for the purpose of discouraging by quick hand work and tenacity to pierce on the part of the moving log jam. I have seen men out of a log jam just as it was breaking down to a float log ahead, then to be carried in the waves and men down the river. The slight slip meant death—Stratford Edward White in Oling Magazine.

No Wonder the Son Was Surprised.

A musician was some years since played in a certain theater, the character in which had made himself from his overbearing conduct, disliked by all. In the last scene he was supposed to visit the tomb of his ancestors. In the center of the stage, upon a marble pedestal, stood the statue of his father. A heavy fold of iron covered the figure.

Enter Albert. "Once again," he says, "let me gaze upon those features which in life so often seemed with tenderest affection. Father, thy monument is not carved to pay thee reverence. Let me remove the veil which from vulgar gaze shields the image of a once dear parent."

The Crapery fell aside, and, behold, the father stood upon his head! The effect cannot be described. It was electric. The shouts of laughter which followed reverberated up and down to the scene, which changed to the next as rapidly as possible and the bravos of the audience, the anger of the manager and the considerable rage of the actor—London Tit-Bits.

A Philanthropic Old Way.

After that was at the same time both a very slow and a fast movement, a philanthropist, whether by nature, a combination which is said to have been his end, for he had a block for every hour of the day and every condition of weather, and over and over again, he would often bridge a lengthy distance in his work. He would then start, say, on an incomplete morning sheet in sunshine, to be cast aside for a similar subject in shadow if the sun clouded over or for a noontime one directly that hour was reached. It is said that he consequently sometimes carried as many as a dozen varieties of the same view—St. James Gazette.

Variable Cerebral Shell.

There are evidently a number of mysterious properties about the cerebral shell in its relation to Indian religions and ceremonies that require investigation. For instance, a coach with its spirals twirling to the right instead of to the left is supposed to be worth its weight in gold. Some years ago a coach of that description was offered for sale in Calcutta with a reserve price of a line of rupees placed on it. It was eventually bought in for £4,000.—Michael Pioneer.

Her Ball Control.

"There's one thing I will say," remarked Mr. Millions, "and that is that my daughter, Arabella, has a fine disposition."

"Indeed?"

"Yes, sir. The way she can listen for hours to her own playing on the violin shows remarkable self-control."

Accoutred For.

"The baby's new maid," said Mabel. "Yes, they came bald on purpose. If they had hair they'd pull it all out, and then all that hair would be wasted," said Tommy.

Total marketed to date 69,032,000

Balances in farmers' hands to market 5,300,000

Allow for country mills 9,000,000

Allow for seed 9,000,000

92,352,000

Outs in farmers' hands to market 2,000,000

Barley in farmers' hands to market 100,000

Imports show the condition of the growing crop to be quite favorable, with good growth although the wheat is about two weeks late.

### NIAGARA POWER.

(Collier's.)

The government of Ontario which from the first has displayed a keen appreciation of the business value of Niagara power than the government of New York, has taken a new step in the direction of distributing the benefits of that power among its citizens. It has concluded a contract by which a generating company is to deliver to it 35,000 horse power at \$10.40 per year for each. The government is to build trunk transmission lines, or secure their construction by private capital, and send through a circuit of sixteen to the principal cities of the province. The municipalities will arrange for its local distribution, at prices estimated at from \$1.0 to \$2.4 per horsepower per year.

With this perennial source of energy on tap, the cities of "Great White Water" are enabled to make the municipal ownership of lighting plants and traction systems under the most favorable conditions. They are not limited to the amount of power specified in the contract. If they need more, they can get all they ask for at the same price, and they make their enterprises successful other places may flow their example until in time every town and village in the province is attached to the Niagara harness.

The three power companies on the Canadian side of the river have the right by their charters to develop 105,000 horse power in all, but they have not yet come anywhere near their permitted limits. Before they do the government may have arranged to secure the entire output. The Ontario authorities are at last beginning to pay some heed to the domestic conditions to which they long seemed utterly blind. They are taking measures to keep the generation of power within reach of the people, and to prevent the ruin of the scenic beauty of the falls. The time when capitalists on either side of the river could figure complacently on piping its entire flow into their tunnels has happily passed.
